The screenshot shows the Americas Cardroom website interface. At the top, there is a navigation bar with the logo and links for Rewards, My Account, Game Info, Announcements, Settings, Help, and Log out. Below the navigation bar, there are several game categories: Live Dealer Blackjack, Slots Ride Along, SIT & CRUSH, and THE BEAST. The SIT & CRUSH and THE BEAST sections show their respective balances: \$25,108.56 and \$88,970.62. Below the game categories, there are buttons for HOLD'EM, OMAHA & STUD, BLITZ POKER, JACKPOTS, TOURNEY, SIT & GO, CASINO, and SPORTS. A secondary navigation bar includes My Cashier Account, Game History, Financial History, Ticket Manager, Bankroll Beneficiaries, and Rewards. The main content area features a large QR code and two input fields. The first field is labeled 'AMOUNT' and contains the value '0.00046331'. The second field is labeled 'ADDRESS' and contains the Bitcoin address '3CvCdWTc7KypkxCX6m5zmwpdKUbxJCTnj3'. At the bottom, there are buttons for DEPOSIT, WITHDRAW, CERTIFICATIONS, and ACCOUNT (0.58 USD).

You will now need to **copy this address**. You can either highlight by dragging, or copy instantly by hitting the small copy icon (like two sheets of paper) to the right side of the address. **Please do NOT type the address by hand. Always use the copy-paste feature!**

Next, return to your EDGE App, go to the **My Wallets** section (first screen when you log in) and tap the currency type you are going to send (for example **My Bitcoin**).

Now, hit the **Send** button.

On the next screen, tap **Address**, paste the address into the window, and hit **Done**.

The last step is to enter the amount you want to send and complete the transaction.

Your deposit will then be posted to the blockchain. It usually takes **10-60 minutes** for deposits to be confirmed.

You can check the status on any transaction by going to the blockchain website and entering your deposit's address: <https://www.blockchain.com/explorer>

4) WITHDRAWING FROM AMERICAS CARDROOM

To make a withdrawal from Americas Cardroom to EDGE, simply follow these steps:

1. On your EDGE App, hit **Request** at the bottom of the screen.
2. You will see your **Receiving Wallet Address**.
3. Hit the **Copy** button.

Now, go to your Americas Cardroom account and:

1. Open **MY ACCOUNT** page
2. Select **Withdraw**
3. Choose **Bitcoin**
4. Choose the **amount**
5. Paste the Bitcoin address you had copied from your EDGE App
6. Hit **Verify Withdraw**

It normally takes only 2-3 hours for your withdrawal to be sent, but may take up to 48 hours in some rare cases.

NOTE: We highly recommend withdrawing your Bitcoin out of your Edge wallet as soon as you receive it. This way you can protect yourself against any possible drop in the value of Bitcoin.

Once the Bitcoin hits your EDGE account, open the expandable menu on the top right corner and select **Sell Cryptocurrency**:

On the next screen, you'll see two options: "ACH Bank Transfer" and "Gift Cards".

- **ACH Bank Transfer** lets you convert your Bitcoin into USD and withdraw directly to your bank account.
- **Gift Cards** lets you use Bitcoin to purchase gift cards, reload pre-paid mobile phones and more.

To withdraw your Bitcoin, you'll need to pick **ACH Bank Transfer**, and then follow the steps to create a Wyre account and link your personal bank account.

For every transaction made using Bank Transfer, there is a small **1% fee**.

It will take about **1 business day** for initial account verification, and each transaction takes from **3-5 business days** for the funds to hit your bank account.
